Experience

JBS Capacitors | Assistant Software Engineer May 2022 – Dec 2022

- Utilised Front-End Technologies such as React and React native to code and design modern UI webpages and mobile applications.
- Conducted Computer Vision Research and provided solutions for Algorithms using Python.
- Collaborated with other team members to produce high quality solutions for clients.

Freelance | Frontend Software Engineer Jan 2021 - Current

- Communicated business requirements with stakeholders and delivered high quality solutions.
- Engineered scalable, responsive, multi-platform and SEO friendly websites for clients using HTML5, CSS3 + BEM, JavaScript ES6+ and React best practises
- Connected to backend through CRUD HTTP requests.

Projects

Personal Website | [Website](#)

- Developed and designed a personal website using HTML, CSS, and vanilla JavaScript with responsive design, showcasing my proficiency in front-end development and providing live links to the website and source code of all my projects.

Client E-Portfolio | [Website](#)

- Designed, developed, and hosted my client's e-portfolio using semantic HTML5 and CSS3 (+BEM) best practises.
- Included responsive and multi-platform support to enable the portfolio to be viewed on any platform and device.

E-commerce Store | [Website](#)

- Created a user-friendly e-commerce store with a focus on seamless navigation and responsive design.
- Implemented HTML, CSS, and JavaScript to optimize performance, enhance user experience, and support various devices.

React Templates Site | [Website](#)

- Developed a collection of versatile React templates using HTML, CSS, and JavaScript.
- Ensured adaptability and smooth integration with various web projects, catering to diverse client requirements.
