Professional Summary

Dynamic GCP Cloud Engineer and Front-End Developer specialising in delivering immersive digital experiences that enhance user engagement. Proudly Google Cloud Certified (ACE) with a strong foundation in Google infrastructure, React, and Next.js. Experienced in architecting seamless, scalable, and robust solutions. Renowned for effective cross-functional collaboration and a keen adaptability to ever-evolving digital landscapes.

Experience

Revolent | GCP Cloud Engineer   May 2023– Current

- Spearheaded the development of Next.js and React-based applications, elevating user engagement and subscription-driven outcomes through precision and analytical prowess.
- Fostering collaborative ties with cross-functional teams, championing front-end strategies that resonate with overarching brand narratives.
- Orchestrated the deployment of various projects across cloud platforms, ensuring top-notch security, scalability, and cost-effectiveness.

JBS Capacitors | Assistant Software Engineer   May 2022 – Dec 2022

- Leveraged analytical acumen and adept communication to bring React and React Native projects to fruition, optimising for both mobile and web, resulting in a notable 15% surge in user engagement.
- Innovated a cross-platform newsletter sign-up system, harnessing the power of A/B testing and iterative design, culminating in a 20% subscriber growth.
- Demonstrated commendable project management skills within agile environments, steering collaboration across diversified teams to meet deadlines and project specifications.

Freelance | Frontend Software Engineer   Jan 2021 - Current

- Tailored and delivered web solutions to numerous SME's with a keen focus on user-centricity and content accessibility.
- Spearheaded SEO initiatives, from keyword optimization to backlink strategies, marking a 30% average uptick in organic website traffic.
- Seamlessly integrated APIs, bridging back-end and front-end data pathways.

Projects

Personal Website | [Website](#)

- Conceptualised and crafted a personal portfolio website, underscoring front-end development prowess with an emphasis on multi-device responsive design.

Client E-Portfolio | [Website](#)

- Engineered and hosted an e-portfolio, adhering to semantic HTML5 and CSS3 best practices, ensuring a fluid experience across devices.

E-commerce Store | [Website](#)

- Sculpted a user-centric e-commerce platform accentuating intuitive navigation, adaptability, and heightened user interactions.

React Templates Site | [Website](#)

- Curated a collection of React templates adaptable for various web projects, meeting a spectrum of client requirements.
